Evening Lecture – The Effects of Stress and Anxiety on Students
CHELTENHAM GIRLS HIGH SCHOOL

25th May, 2012

Cheltenham Girls High School would like to take this opportunity to invite the parents, students, teachers, and staff to an evening lecture to be held in our School Hall on Monday, 18th June, 2012 at 7.30pm.

Both the P&C and School Staff at Cheltenham have recognised the fact that many students, and perhaps their parents, undergo a deal of stress and anxiety during their high school years.

In response to this, we have organised for Dr. Xie Liu, Psychologist, Doctorate of Psychology (Candidate), Centre of Emotional Health, Macquarie University, to present a lecture on this subject, and perhaps provide answers to the many questions parents and students may have in this often complicated arena.

The cost of entry is a gold coin donation. Tea and coffee will be served.

It would be appreciated if approximate numbers of attendance would be forwarded to Danielle Gorton (P&C Vice President) at mymouse@optusnet.com.au by Tuesday, 12th June, 2012.

This is a wonderful opportunity for anyone in need of information in this area. We hope your school community will take advantage of this presentation.

Yours sincerely,

Stephanie Davison
President,
Cheltenham Girls High School P&C
